Search Notes

Dear Examiner Rajiv:

Please find attached the results of your search for the above-referenced case. The search was conducted in the template files.

I have listed *potential* references of interest in the first part of the search results. However, please be sure to scan through the entire report. There may be additional references that you might find useful.

If you have any questions about the search, or need a refocus, please do not hesitate to contact me.

Thank you for using the EIC, and we look forward to your next search!

Paul

(Former US Army medic Van Brandon reveals he was ordered to maintain set of
false records on exposure of soldiers to radiation during atomic testing
at Yucca Flats (Nev) in '56-57 while entering true levels of
contamination in second set of ledgers. Contends film badges worn by
troops at test site often registered radiation above allowed limits.
Affirms he was threatened with treason charge if he revealed coverup, but
decided to talk after learning of National Assn of Atomic Veterans.
Attributes medical problems suffered by his children and grandchildren to
effects of radiation, noting he cannot **submit**
disability **claim** because Army
denies tests occurred (M).)

... 1987. Effectiveness is defined as the likelihood that a screen will
deter a physician from **submitting** a 'bad'

claim for medically unnecessary services. This concept is different from the more usual effectiveness measures of the volume or dollar amounts of inappropriate **claims** identified and **denied** by carriers. Also examined were post-payment medical review activities, innovative carrier review activities, and...
